

16 October 1975

MEMORANDUM FOR: Executive Officer/Office of Finance
THROUGH : Chief/Accounts and Analysis Division
SUBJECT : Job Descriptions

25X9 Attached are the job descriptions for the positions now assigned as well as the new positions agreed on by Mr. Yale during the session we had some time ago as you may recall. Although no grades were agreed upon, I have spread the  as follows:

25X1A The job sheets on these positions are in the format previously followed by  I have, as you noticed, classified all positions as Systems Accountants. I believe the "position classification standards" for Systems Accountant applies very nicely to the Analysis Branch.

25X1A Attached is also  job description to accommodate the upgrading of his position. Whereas his duties fit into a singleton role, I do not envision the other positions on the staff so easily defined. As you are aware, the recent surge of systems projects does and will continue to dictate an M.O. of flexibility. For example, today we have X people on GAS; but if priorities were to shift, we must move resources from project to project. Or to put it another way, it may be very difficult to justify a GS-13 for  based on the JPRS project but the grade is justifiable in the broad aspect of systems endeavors.

I pulled the CS-14's.
 Disc. for [REDACTED] (separate note). On the out of the new job, before we send to PMCD we need to tell them where ceiling coming from. Did you all have something in mind when you approved the additional slots for AB/A+A?
